Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

**A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.**

Local Law No. 5 of 2007 establishes the authority by which the Town of Brunswick has to regulate and control stormwater runoff from newly constructed facilities in the Town and to maintain new and existing stormwater facilities. The local law aims to reduce pollutant in stormwater and to control stormwater to reduce erosion and sediment entrainment in run off from impervious surfaces. The Town has developed a robust post construction maintenance easement agreement that will be

**B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.**

Town has completed a Town Stormwater management plan which addresses post construction maintenance and inspection procedures. Mapping of all existing stormwater facilities is complete and maintenance responsibility is being determined. Town continues to improve on the tracking and monitoring of stormwater practices in it's jurisdiction. Town is updating existing Stormwater Management Plan

**Minimum Control Measure 6. Stormwater Management for Municipal Operations**

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

**1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.**
